

NATURAL SPA & CANDLES

Refresh the body and cleanse the soul with natural spa products from the Spice Islands.

Choose from natural organic soaps, hand carved pumice stones, and beautiful gift sets. The soaps are produced in a small cooperative of artisan soap makers and organic farmers from high in the mountains of Bali. Ingredients such as beeswax, coconut oil, aloe vera, vetiver, clove, vanilla, and floral essences are sourced locally. The success of these soaps has helped encourage even more organic and sustainable farming in Bali.

Fill your space with the luscious scents of our sustainable beeswax blend candles, in their beautifully hand tooled, recycled aluminum tins.
